

Different People (stand together)

© 2012 Bromley, Chelva, Kim, Pyke

- V1** Are you ready, ready to dream, dream it right into reality?
From the first time that you believe, it's something to hold on to
- Pre chorus** Hold your head high, take your chances,
Life is more about questions than answers
Whoever you are. Ohhh.
- Chorus 1** Different people, different places
Stand together (we stand together)
Singing with one voice, nothing can ever stop us or hold us down.
And though we may fall out of time
The rhythm's there for all of us to find.
- V2** Is there something, something you see
Something so far that's just out of reach
I'm beside you, here where you stand
So come on and take my hand
- Pre chorus** Hold your head high, take your chances, life is more about questions than answers
- Chorus 2** Different People, different places
Stand together (we stand together)
Singing with one voice, nothing can ever stop us or hold us down.
And though we may fall out of time the rhythm's there for all of us to find
- Chorus 3** Different People, different places
Stand together (we stand together)
Singing with one voice, nothing can ever stop us or hold us down
Different people, different places, something in every sound
And though we fall out of time, the rhythm's there for all of us to find
